HYUNDAI HY40CSC38

20Vx2 SCARIFIER & AERATOR

Thatch builds up in any lawn that gets regular use. Left alone, it blocks water, air, and nutrients from reaching the roots — and no amount of feeding or watering fixes the underlying problem. The Hyundai HY40CSC38 is a 40V cordless 2-in-1 that removes thatch with its scarifier blade (rigid steel tines) and aerates compacted soil with its raker blade (spring tines), both across a 38cm / 15" working width.
