HYUNDAI HY40CT36

40V PETROL TILLER

Preparing a vegetable bed, turning compost into tired soil, or clearing a patch for planting — none of it requires a petrol machine. The Hyundai HY40CT36 is a 40V cordless tiller powered by two 20V lithium-ion batteries. The brushless motor drives four steel blades through a 35cm / 14" working width to a depth of up to 205mm.

Specification

Model	HY40CT36
Start Method	Electric start with recoil backup
Power Source	Cordless (2x 20V lithium-ion)
Battery Capacity	2x 4.0Ah
Working Width	350mm / 35cm
Working Depth	205mm
Blade Speed	175 RPM
Propulsion	Push
Motor Type	Brushless
Number of Blades	4
Warranty (Home Use)	3 years
Gross Weight	12.5kg
