HYUNDAI HY6250SEi

5.5kW PETROL INVERTER GENERATOR

Larger motorhomes, twin-axle caravans and off-grid glamping setups can draw more power than a mid-range generator can comfortably handle. The Hyundai HY6250SEi delivers 5.5kW / 5500W maximum output and 5kW / 5000W continuous, giving you the headroom to run a fridge, microwave, lighting and entertainment system without worrying about overload.
