### HYUNDAI HYAF5001DB 5L DIGITAL AIR FRYER

You know that feeling when oven chips come out soft in the middle and pale on the outside? Or when chicken takes 45 minutes and still does not look right? The HYUNDAI HYAF5001DB solves both. It is a 5L, 1500W air fryer that circulates heat at high speed to crisp food from all sides at once — in a fraction of the oven time, with a fraction of the oil.

#### Specification

Capacity	5L
