## HYUNDAI HYBC-20 BATTERY BOOST CHARGER

The HYBC-20 is a 230V Battery Boost Charger from Hyundai. The HYBC-20 features a built-in intelligent microprocessor making charging faster, easier and safer. The safety features include spark proof, protection for reverse polarity, short circuit, overheat and overcharge.

### Specification

Model	HYBC-20
Charger Input	220-240VAC, 50-60Hz
Charger Output	12VDC, 2A/4A/6A/8A/10A/15A, 24VDC, 3.5A/7.5A, 12VDC, 20A, 300s (BOOST) Temperature Controlled
Charger Type	8 Steps, Full Automatic Charging Cycle
Charger Battery Type	All 12V & 24V Lead-Acid Batteries
Charger Battery Capacity	2-400Ah (12V), 14-200Ah (24V)
Charger Efficiency	85% Approx.
Charger Power	Variable Power, 350W Max.
Charger Housing Protection	IP20
