### HYUNDAI HYBC5600X

#### PETROL 56cc BRUSHCUTTER

Some garden tasks need more than a trimmer. Thick weeds, brambles, and overgrown patches can be difficult to clear with standard nylon line. The Hyundai HYBC5600X is built for these situations. It's a 56cc petrol brushcutter with a steel blade that cuts through dense vegetation, plus a grass trimmer attachment for regular trimming and edging work.

#### Specification

Model	HYBC5600X
