HYUNDAI HYBV3000E3 3-IN-1 CORDED LEAF BLOWER

Autumn always leaves the same mess: leaves on the patio, clippings on the path, debris in the flower beds. The usual approach means three separate jobs with three separate tools. The Hyundai HYBV3000E3 cuts that to one. It is a 3000W electric 3-in-1 machine that blows debris into piles, vacuums it into a 34L collection bag, and mulches it down to a fraction of its original volume.
