HYUNDAI HYM16130PX 139cc PETROL LAWN MOWER

Some lawns outgrow electric mowers. Maybe the cable doesn't reach, the battery dies halfway through, or the grass just gets too long between cuts. The Hyundai HYM16130PX is built for those situations. It's a 16" / 40cm petrol lawnmower with a 139cc four-stroke engine that starts on demand and keeps running until the job's done. No charging, no trailing cables, no waiting. Just an easy recoil start and you're away.
