HYUNDAI HYM20200SPX 196cc PETROL LAWN MOWER

When your lawn gets bigger, your mower needs to keep up. The Hyundai HYM20200SPX steps up with a 20" / 51cm cutting width and a 196cc engine producing 5.5hp. That's nearly 50% more power than the 139cc models, giving you the muscle to handle thicker grass, longer growth, and larger areas without bogging down.
